Conditions:

These warranties are subject to change without notice.

* Labour warranty coverage is for a period of 1 year from date of installation; If Mitchell 'Warranty Time' is not available, PartSource will use Mitchell's 'Labour Time'. Towing is not included. Fleet customers (e.g. Police, taxi cabs, etc) labour warranty coverage is for a period of 90 days from the date of installation.

** Lifetime warranty does not apply to Failsafe thermostats locked in the 'open' position. These thermostats are designed to lock open in the event of an overheating situation. If this occurs, the thermostat is not defective. However, the thermostat will not function as a thermostat any longer and must be replaced, but not under warranty.
